

# JAYDEV HAPANI

Senior Mobile Application Developer

Amreli, India | +91 81282 46008 | hapanijaydev04@gmail.com

Portfolio | LinkedIn | GitHub

## Professional Summary

---

Senior React Native Developer and Mobile Team Lead with **5+ years** architecting, building, and scaling cross-platform Android and iOS applications for international products and startups. Delivered **19+ production apps** across **10+ countries**, including **Callyzer Pro (100K+ downloads, 4.5-star rating, 70K+ active subscribers)**, spanning fintech, healthcare, e-commerce, streaming, and B2B SaaS.

Led a **14-member mobile team**, owned scalable mobile architecture (**Clean Architecture, MVVM**) and system design, cut crash rate by **70%**, reduced ANRs by **50%**, and accelerated release cycles from 2 weeks to **3 days** through **CI/CD** automation. Hands-on experience writing and bridging native **Kotlin (Android)** and **Swift (iOS)** modules inside React Native apps. Ships AI-powered mobile features and applies LLM-assisted engineering to raise developer productivity and code quality. Product-minded and Agile, with a consistent focus on user experience, application security, performance, and measurable business impact.

## Technical Skills

---

**Programming Languages:** JavaScript, TypeScript, Node.js, HTML, CSS, Kotlin, Swift

**Mobile Development:** React Native, Flutter, Android, Ios, React Native New Architecture, Hermes, Fabric, TurboModules, Redux Toolkit, React Query, TanStack Query, Firebase, Push Notifications, Deep Linking, Realm Database, Expo, EAS Build

**Native Development:** Kotlin, Swift, Native Module Bridging, Android Native Modules, iOS Native Modules, MVVM, Clean Architecture

**Frontend:** React.js, SASS, Tailwind CSS

**Backend:** Node.js, Express.js, GraphQL, Apollo Client, REST APIs

**Cloud and Serverless:** AWS Lambda, API Gateway, DynamoDB, Firebase

**Realtime Technologies:** Socket.IO, Agora, WebSocket

**Databases:** MongoDB, MySQL, Realm Database, SQLite, WatermelonDB

**Testing:** Detox, Detox End-to-End Automation Testing, Jest

**AI and ML:** LangChain, RAG Pipelines, LlamaIndex, OpenAI API, Claude API, Gemini API, Prompt Engineering

**Tools:** Git, GitHub, Android Studio, Xcode, Postman, Claude Code, Cursor, GitHub Copilot

**Development Practices:** Agile Methodology, Scrum, Code Reviews, Performance Optimization, Application Security, CI/CD, App Store Deployment, Play Store Deployment, Google Play Console, Firebase Crashlytics, Firebase Analytics

## Professional Experience

---

### Mobile Team Lead

*Apr 2024 – May 2026*

### Webs Optimization Pvt. Ltd., Ahmedabad

- Led a cross-functional team of **14 engineers** (5 React Native, 6 Android, 2 QA, 1 BA) across Agile sprints; defined

OKRs, sprint goals, and a technical roadmap aligned with CEO-level product strategy.

- Architected and led **Callyzer Pro**, a B2B call-management and analytics platform, scaling it to **100K+ downloads**, a **4.5-star** Play Store rating, and **70K+ active subscribers** via Google Play Billing and RevenueCat subscription management.
- Reduced app crash rate by **70%** by monitoring Firebase Crashlytics and Play Console vitals and shipping targeted fixes and hotfixes.
- Reduced ANR incidents by **50%** through root-cause analysis and background-thread optimization.
- Accelerated the release cycle from 2 weeks to **3 days** by architecting and maintaining CI/CD pipelines automating build, test, and deployment.
- Drove performance engineering across the app — FlatList virtualization, Hermes engine, memory-leak resolution, and JS bundle reduction — measurably improving cold-start, scroll performance, and user experience.
- Wrote and maintained **native Kotlin (Android)** and **Swift (iOS)** modules, bridging platform-specific functionality into the React Native layer where JS-only solutions fell short.
- Defined mobile architecture standards (**Clean Architecture**, **MVVM**, typed modular design with reusable components), reducing technical debt and onboarding time for new engineers.
- Established engineering best practices — code-review checklists, PR standards, and technical documentation — improving code consistency and developer productivity across the team.
- Partnered with product stakeholders on scoping and prioritization, using Firebase Analytics and production monitoring to inform data-driven product decisions.
- Championed LLM-assisted development (Claude, GitHub Copilot) across the team to accelerate debugging, documentation, and code quality.
- Authored Functional Specification Documents (FSDs) for all features and led kickoff meetings aligning QA, design, and engineering on scope and acceptance criteria.
- Owned the Git branching strategy — validated feature branches, gated merges on QA sign-off, and maintained a clean development trunk for predictable releases.
- Managed Google Play Console end-to-end — staged Beta and Production rollouts, version documentation, and customer-facing release notes.
- Conducted technical interviews, mentored junior developers, and ran a structured training program for React Native interns.

## Senior Mobile Developer

*Jan 2023 – Mar 2024*

Seven SquareTech Pvt. Ltd., Ahmedabad

- Built and optimized high-performance React Native applications; led core modules and mentored junior engineers across multiple Scrum delivery teams.
- Implemented advanced state management with Redux, Context API, and TanStack Query, plus deep REST API and Firebase integrations powering multiple production releases.
- Improved app stability and performance across releases — recognized with the **Star Performance Award**.

## Junior Mobile Developer

*Dec 2021 – Dec 2022*

ManekTech Pvt. Ltd., Ahmedabad

- Built and maintained React Native apps; integrated REST APIs and Firebase services for production clients.
- Delivered client projects under tight deadlines — recognized with the **Client Appreciation and Outstanding Performance Award**.

## Junior Mobile Developer

*Dec 2020 – Dec 2021*

iFlair Pvt. Ltd., Ahmedabad

- Began career as a React Native Developer, building strong fundamentals in mobile architecture, debugging, and store deployment.
- Delivered Android and iOS releases from development through Play Store and App Store submission.

# Projects

---

## Callyzer Pro

*B2B SaaS / Lead Developer*

*React Native, TypeScript, Firebase, Play Billing, RevenueCat*

Businesses lacked visibility into sales-team call activity. Architected and led the React Native platform delivering call logs, duration tracking, and analytics dashboards with subscription management.

- Outcome: scaled to **100K+ downloads**, **70K+ active subscribers**, and a **4.5-star** Play Store rating.

## Bluebird

*Social Media / Lead Developer*

*React Native, AI Content Moderation*

User-generated platforms need scalable content safety. Led the React Native build and integrated AI-powered moderation that detects and blocks sexual content, hate speech, and policy-violating posts in real time.

- Upgraded project dependencies, native libraries, and third-party SDKs, improving app performance by up to **50%**; reduced rendering issues and ANRs by up to **75%**.
- Outcome: **1M+ downloads** with a **4.5-star** Play Store rating.

## You Spin

*Music Streaming / Lead Developer*

*React Native, Firebase, OneSignal, RevenueCat*

Delivered a subscription music-streaming service for the African market — listening, downloads, and paid tiers powered by RevenueCat, with OneSignal push notifications driving engagement and retention.

- Upgraded project dependencies and native libraries, improving performance by up to **70%**; reduced rendering issues and ANRs by up to **80%**.
- Outcome: **500+ downloads** with a **4.2-star** rating.

## Anime Streaming

*Video Streaming / Lead Developer*

*React Native, Firebase, Redux*

Built a multi-language anime streaming app with user subscriptions and offline downloads, localized for the Chinese market to expand accessibility and watch-time.

- Upgraded project dependencies and native libraries, improving performance by up to **80%**; reduced rendering issues and ANRs by up to **85%**.
- Outcome: **500K+ downloads**.

## Foodies

*Food Delivery / Lead Developer*

*React Native, Firebase, Redux, Google Maps*

Delivered a seamless order-to-door experience — real-time delivery tracking via Google Maps, with Firebase authentication and notifications powering reliable order updates.

## Wave – Mobile Monet

*Fintech / Senior Developer*

*React Native, WebSocket, Blockchain Wallet Integration, AI-Assisted Debugging*

Modernized a large-scale fintech wallet application supporting blockchain-based wallet transactions and real-time data over WebSocket connections.

- Reduced unwanted and legacy code by **25%** and cut re-rendering issues by up to **78%** through targeted refactoring.
- Reduced native background crashes by up to **80%** using AI-assisted debugging tools, and migrated the app to a new, updated architecture and version.
- Resolved recurring WebSocket connectivity issues and fixed critical wallet and blockchain transaction bugs.
- Outcome: supports **50M+ downloads** with a **4.0-star** rating.

## Swadha

*Fintech / Developer*

*React Native, Redux, IAP*

Digitized the full loan lifecycle — applications, EMI calculation, customer support, and in-app purchases — giving customers end-to-end loan management from their phone.

# App Portfolio by Domain

---

**19 production apps** delivered across **10+ countries**.

**Enterprise and B2B SaaS (3):** Callyzer Pro (India), GBS User App (India), Shesha HR (South Africa)

**E-Commerce and Shopping (4):** PriceMice (USA), WooCommerce Shopping App (Dubai), EPIC Beverages (South Africa), Ecompendium (Australia)

**Streaming and Media (3):** You Spin Music (Africa), Anime Streaming (China), Good Talk Motivation (Africa)

**Food, Hospitality and Booking (3):** Foodies Delivery (UK), Mingora Hotel, Book My Temple (India)

**Social and Sports (3):** Bluebird Social Platform, 2Link Dating App, Eyes on Score Sports Archive

**Fintech and Logistics (3):** Swadha Loan Management (India), Expo Transporter Shipping (USA), Wave – Mobile Monet

**Healthcare (1):** Family Health Monitor (USA)

## Education

---

**B.Sc. in Computer Science**

Graduated 2021

**Intellectual Institute of Management and Technology, Delhi**

- Final-year project: a cross-platform College Sports Management App (React Native, Firebase real-time DB, push notifications) for managing events, team registrations, scores, and player profiles.

## Certifications

---

- **Android Knowledge Certification** — Google

## Achievements

---

- **Star Performance Award** — Seven SquareTech Pvt. Ltd.
- **Client Appreciation and Outstanding Performance Award** — ManekTech Pvt. Ltd.

## Additional Information

---

- **Languages:** English (fluent), Hindi (fluent), Gujarati (fluent)
- **Availability:** Open to remote and international opportunities (valid passport)
- **Interests:** Travelling, gaming, riding, reading
