PROFESSIONAL SUMMARY

Senior React Native Developer and Mobile Team Lead with 5+ years designing, scaling, and shipping cross-platform mobile applications for Android and iOS. Delivered 19+ production apps across 10+ countries — including Callyzer Pro (100K+ downloads, 4.5★, 70K+ active subscribers) — spanning fintech, healthcare, e-commerce, streaming, and B2B SaaS. Takes full ownership of the mobile stack with the autonomy to navigate ambiguity and ship under shifting requirements, balancing delivery speed with code quality and user experience. Reduced crash rate by 70%, cut release cycles from 2 weeks to 3 days through CI/CD automation, and eliminated 50% of ANR incidents within one month. Led a cross-functional team of 14, owning the technical roadmap from OKR planning through store release. Strong in performance refinement, debugging and bug fixing, technical writing, and integrating LLMs and AI-assisted tools to accelerate delivery and elevate code quality.

PROFESSIONAL EXPERIENCE

Mobile Team Lead | Webs Optimization Pvt. Ltd., Ahmedabad Apr 2024 – May 2026

- Led a cross-functional team of **14 engineers** (5 React Native, 6 Android, 2 QA, 1 BA) across Agile sprints; defined OKRs, sprint goals, and a technical roadmap aligned with CEO-level product strategy.
- Served as **Technical Lead for Callyzer Pro**, a B2B call-management and analytics platform, scaling it to **100K+ downloads**, a **4.5★** Play Store rating, and **70K+ active subscribers** through Google Play Billing and RevenueCat subscription management.
- Reduced app **crash rate by 70%** within two months by monitoring Firebase Crashlytics and Play Console ANR reports and executing targeted bug fixes and hotfixes.
- Achieved a **50% reduction in ANR incidents** within one month through root-cause analysis and background-thread optimization.
- Cut the **release cycle from 2 weeks to 3 days** by architecting and maintaining CI/CD pipelines that automate build, test, and deployment workflows.
- Drove mobile performance optimization and refinement across the app — implemented FlatList virtualization, enabled the Hermes engine, resolved memory leaks, and reduced JS bundle size — measurably improving cold-start, scroll performance, and overall user experience.
- Authored Functional Specification Documents (FSDs) for all features and led kickoff meetings to align QA, design, and engineering on scope and acceptance criteria.

- Owned the Git branching strategy: validated feature branches, gated merges on QA sign-off, and maintained a clean development trunk for predictable releases.
- Managed Google Play Console end-to-end — staged Beta and Production rollouts, version documentation, and customer-facing release notes.
- Conducted technical interviews, mentored junior developers, and ran a structured training program for React Native interns.

Senior Mobile Developer | Seven SquareTech Pvt. Ltd., Ahmedabad *Jan 2023 – Mar 2024*

- Built and optimized high-performance React Native applications; led core modules and mentored junior engineers across multiple Scrum delivery teams.
- Implemented advanced state management with Redux, Context API, and TanStack Query, plus deep REST API and Firebase integrations powering multiple production releases.
- Improved app stability and performance across releases — recognized with the **Star Performance Award**.

Junior Mobile Developer | ManekTech Pvt. Ltd., Ahmedabad *Dec 2021 – Dec 2022*

- Developed and maintained React Native apps; integrated REST APIs and Firebase services for production clients.
- Delivered client projects under tight deadlines — recognized with the **Client Appreciation & Outstanding Performance Award**.

Junior Mobile Developer | iFlair Pvt. Ltd., Ahmedabad *Dec 2020 – Dec 2021*

- Began career as a React Native Developer, building strong fundamentals in mobile architecture, debugging, and store deployment.
- Contributed to Android and iOS releases from development through Play Store and App Store submission.
